MS Teams link:	
09:30	Opening of the workshop • Welcome addresses by ISRBC & UNESCO • Introduction of the agenda and way of work
09:45 – 10:15	**Overview of the SHELTER project and the Sava Open Lab local objectives**
	• Current status of the SHELTER project, of the five Open Labs and implementation of the Sava Open Lab local objectives, strategies and tools
	Current progress in the project implementation will be presented as well as actions performed, accomplished deliverables and outputs after the sixth workshop.
10:15 – 11:30	**From knowledge and data collected to results, lessons learned and transferability**

	• Presentation and discussion on the prioritized tools
	    - DSS Dashboard
	    - Risk Assessment Dashboard
	    - Rapid risk/damage assessment module
	    - IoT module
	    - Chatbot module
	 • Achievements of the Open Lab and follow up
	 • Towards a SHELTER step-by-step guide for users
	 • Discussion and feedback of the stakeholders

	Session requires stakeholders to use the following link in order to actively participate: https://e21z.es/shelter/#. At the session the status of the agreed local objectives, in addition to the main project goal, will be presented and discussed how the results could be further exploited and became operational.
11:30 – 12:00	**Debriefing and Conclusions**
	• Towards the SHELTER Final Conference 27-28 April 2023 at UNESCO Regional Bureau for Science and Culture premises • Conclusions
	Discussion and agreement on the agenda dedicated to the Sava Open Lab session at the Conference. Conclusions from the workshop and a joint statement of the Sava Open Lab towards the Final Conference will be discussed. Session requires stakeholders to prepare official statements per organization and deliver prior to the workshop.
12:00	**Workshop closure**

Back-to-back event
