

Sustainable Historic Environments holistic reconstruction through Technological Enhancement and community-based Resilience

Dear reader,

Due to the COVID-19 pandemic, the past months have been pretty intense. The lockdown restrictions have impacted all of our lives, at different levels, making us find new ways to be effective and active throughout this pandemic time! Indeed, during these months SHELTER partners have worked hard to achieve lots of progresses within the project.

In May 2020, SHELTER has been presented and participated in the Virtual Adapt North Heritage Conference, exchanging views on how to improve cultural heritage resilience in historic and natural areas.

Also, a strong effort was carried out by all SHELTER partners involved in the Open Labs in order to ensure continuity and not let the COVID-19 lockdown interfere too much with the project timeline. Indeed, some of them seized the opportunity to engage with stakeholders and users via devoted online workshops, while others engaged with stakeholders in bilateral interactions.

Most recently, on the 17-18th of June 2020, SHELTER Consortium celebrated a virtual 2-day Assembly. During the event, partners were called to discuss status and way forward, planning a new General Assembly after summer.
