

## SHELTER - Newsletter #6

### Welcome to SHELTER's latest news!

With pleasure, we invite you to read the latest SHELTER Newsletter, the second of this challenging 2022, which brings you the highlights of our latest activities this year. **Stay in touch** and connected with our social media channels!

Be Inspired  
#SustainableHistoricEnvironment  
#BuildingResilience

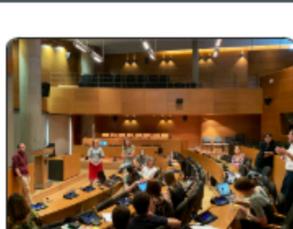

### R2B - Enhancing Resilience

In June, the interdisciplinary group of the **Ravenna Open Lab** participated in this digital event, showing the current status of the **monitoring activities** in the area and giving an insight into their final **goals**.

### 3rd EU Task Force Meeting

We keep working with our sister projects, to **bridge the gap between urban development, resilience planning and heritage management**. An important **synergy** between **SHELTER, ARCH and HYPERION** to identify the challenges and create a paper with recommendations!

[READ MORE ON THE EU TASK FORCE](#)

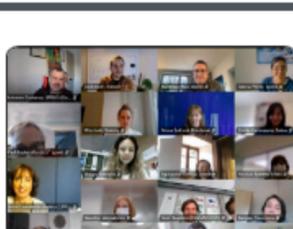

### Peer Learning Workshop

To **strengthen our collaboration** with ARCH and HYPERION, and **exchange knowledge and best practices** to build a real and strong **#CulturalHeritage Resilience**, we have realized a very interesting and engaging event.

## DID YOU KNOW?

### SHELTER's new LinkedIn page

To **engage** more with the network, and **be updated** with all the news from our partners, we have created a brand new company page on LinkedIn.

[> CONNECT WITH US <](#)

### SHELTER has been mentioned in the EUSPA EO & GNSS Market Report 2022!

In fact, SHELTER was mentioned among the **Cultural Heritage relevant projects** in the EUSPA EO and GNSS Market Report 2022. An achievement that is possible thanks to the great work of partners, our Open Labs and all the teams working on developing the tools inside the Operational Knowledge Framework. **Check out page 175** of the report!

### Check out "Bridges" - UNESCO Newsletter!

Do not miss SHELTER contents reported in the last issue of the UNESCO e-Newsletter. On **pages 5 & 6**, the **Sava River Basin Open Lab** is our guest of honour with the importance of co-creating tools for better flood risk response. Then, a focus on the 2nd EU Task Force Meeting and the 9th Sava Youth Parliament.

### Stay focused on Risk-Informed Development

A June full of surprises this one. Indeed UNESCO delivered also an article titled "**Risk-Informed Development: technological solutions and financial tools for enhancing resilience of cultural heritage**"

[> READ THE FULL ARTICLE <](#)

### Another brick in the Community Resilience Development

At the end of April, the **final draft of the CEN workshop agreement 17727 on City Resilience Development** was approved by the board of CEN workshop members. A good job accomplished with ARCH and RESILOC, it's now passed to the European Committee for Standardisation (CEN) for publication. **One step closer to SDG11!**

### Supporting Sava River Basin countries in Flood Risk Reduction

UNESCO launched in June the video dedicated to the **SHELTER Sava River Basin Open lab and the Sava Youth Parliament 2021 edition**. In the frame of the SHELTER project, the aim is to help these countries, highly affected by flood events, to **develop disaster risk reduction policies and tools**.

## DO NOT FORGET SHELTER Youth Ambassador Call

We invite all the **younger generation** to **take action and protect our cultural and natural heritage**. We want to reach the Young Leaders out there and encourage them in the **local community involvement**. So write to us at [contact@shelter-project.com](mailto:contact@shelter-project.com) and be engaged!

## UPCOMING NEXT

SHELTER is preparing for its **7th Generally Assembly** in September, a moment where all the Consortium partners will report on the **status of works and progress**, presenting the latest results, and **showcasing the first sets of solutions** that are comprised in the SHELTER Operational Knowledge Framework.

September will be a really busy month. Not only we will have our General Assembly, but also in Turin, it will be held the **10th Italian Association of Urban History (AISU) Congress** focus on *Adaptive Cities Through the Postpandemic Lens*.
