## DID YOU KNOW?

### SHELTER's new RESULTS page

To better **showcase the results** of the SHELTER project, it's finally online a dedicated page with all the information models, databases, services, and tools that constitute the **Operational Knowledge Framework**.

An important step in presenting the hard work done by the partners of the project!

## UNESCO presented SHELTER in North Macedonia

A great opportunity arise during the *"UNESCO training on building a climate resilient future: Capacity development in climate change adaptation and disaster risk management in selected UNESCO designated sites of South-East Europe"* held in Ohrid, North Macedonia, this October.

Thanks to our partner UNESCO, SHELTER and the Sava River Basin Open Lab have been presented to the international attendees as a concrete solution in terms of disaster risk management and resilience.

## UPCOMING NEXT

SHELTER is preparing for 2023, our project's last year.

We are looking forward to our Final Conference, for which we will give more details in our next newsletter, but we are also preparing for the next **General Assembly** in February. **Stay tuned!**
